COMPLAINT AGAINST THE VICTORIA HOSPITAL, BANGALORE.

—o—

(COMMUNICATED.)

The Victoria Hospital authorities are said to collect Rs, 5 for certain cases of injection made in the Laboratory, irrespective of the ability of the person to pay it on the ground that such injections, if taken from a private practioner, will cost the patient more money. But when such actions are questioned by the Government, a ready explanation is given that the patients contribute such payments to the Poor Fund. We wonder whether the Medical Officers in charge of the Victoria Hospital are there to enrich the Poor Fund at the expense of the still poorer patients and why the Government cannot realize that a poor man who is exempt from paying a two-anna bit for his medicine can hardly afford to contribute such a huge sum as Rs. 5 to the Poor Fund unless compelled. Will the present Senior Surgeon stop such practice permanently ?

SIR,

With reference to your letter No.L.6053-Med.69-22-4, dated 28th February 1923, I have the honor to submit a revised set of Rules to regulate the administration of the "Poor Fund" of the Victoria and the Krishnarajendra Hospitals in the light of the observations therein made.

Indigent and pauper patients will not be charged for under any circumstances. In respect of intravenous injection of neo-salvarsan or other specific, the responsibility of persons with an income of less than Rs.50/- per mensem, has been limited to the cost of the medicine and the scale of charges in other cases has been fixed according to the monthly income of the party concerned.

As regards payment of a part of the charges to the Pathologist in certain cases, the suggestion is made on the analogy of the practice obtaining in the Public Health Laboratory where, in accordance with G.O.No.11665-Mis.F.28-96, dated 17th March 1898, only 4 % of the fees charged for the work undertaken in that institution is credited to Government. As microscopic and bacteriological work involves much time and patience on the part of the officer and occupies

him

him beyond the usual prescribed working hours of the Hospital where, more over, he is not provided with official quarters, the grant to him of a portion of the fees realised as ~~xxxxx~~ suggested in the rules is not without justification.

The draft of the revised rules is attached.

I have the honor to be,

Sir,

Your most obedient servant,

Revised draft of

Rules for the administration of the Poor Fund of the Victoria and the Krishnarajendra Hospitals.

1. The Poor Fund shall be deposited in the Government Savings Bank to the account of the Medical Officer in charge of the Hospital.

2. The following charges shall be met from the Poor Fund:-
   (a) Cost of supplying crutches and artificial limbs to poor patients who have undergone amputations in the hospital.
